

The Africa Range Colour Palette

The Africa Range, a brand that specialises in granite slabs sourced from the deserts of Namibia. Because these slabs are natural stone and are essentially 'raw' products, like all natural stone, products from this range also require maintenance and sealing in order to get the best out of each slab and to ensure they retain their look and feel. Granite is durable, but can contain natural cracks and fissures and tend to be porous. Regular care will ensure this natural surface lasts beautifully.
